TURN YOU

CH2

What? Right now?
Of course now! Why do you think I came over?
You know I hate photos of me...
I should've just looked up the head thing online so all this wouldn't be happening.
You'd ban me from seeing this suit in action in real life just to avoid a few photos?
People could see those photos.
Yeah, I'd be okay with her seeing them. B-but what if your computer is hacked and people get those photos?!
Don't insult me, I'm not that bad with computer protection!
You know I wouldn't let anyone see them. Except for my girlfriend.
No one would recognise you. You have the mask on.

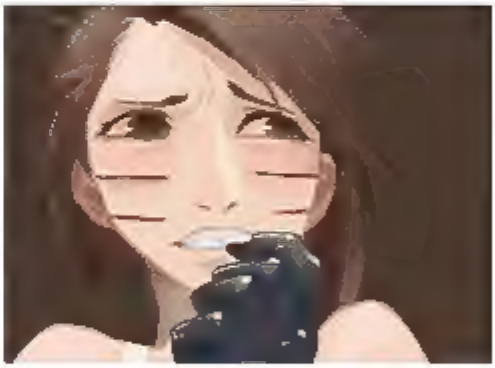
But my room... People may recognise my room.

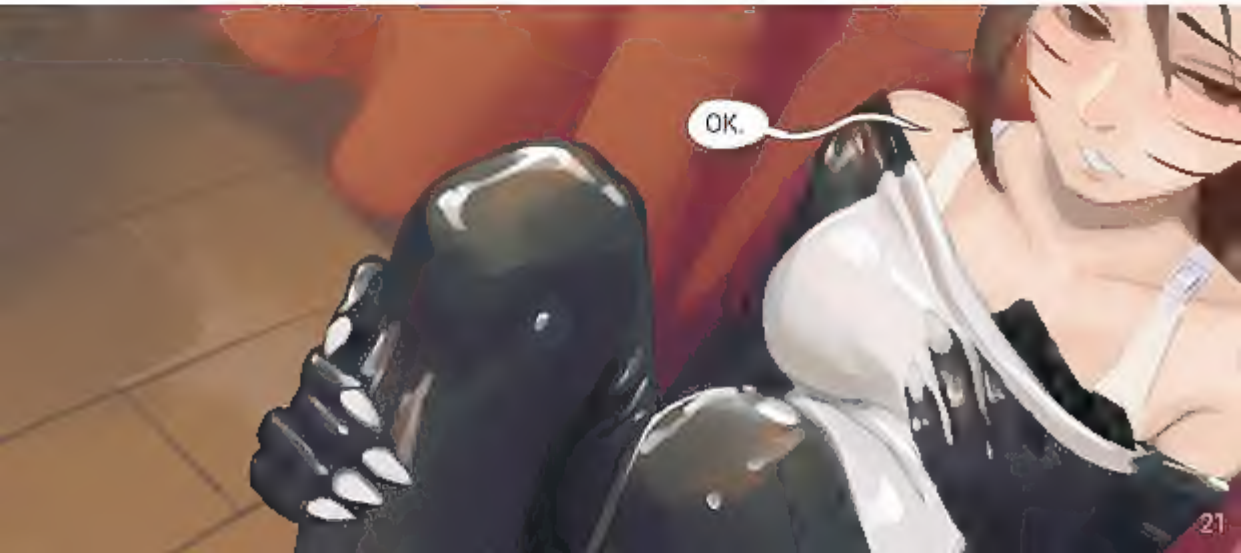
Are you ***that*** paranoid?

You know how fans are, even with art. They'll try to find me.

You've got to learn to be more adventurous.

Learn to let go a little. Get loose. That's what the suit should help with.

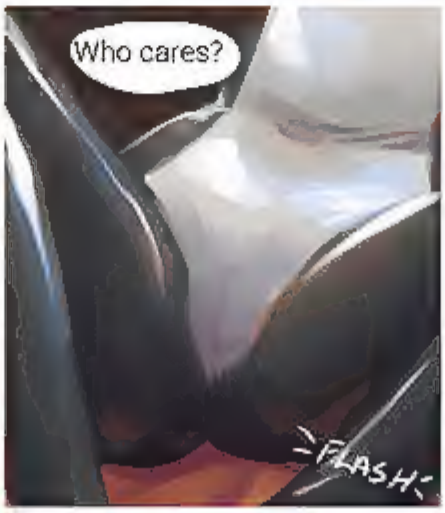


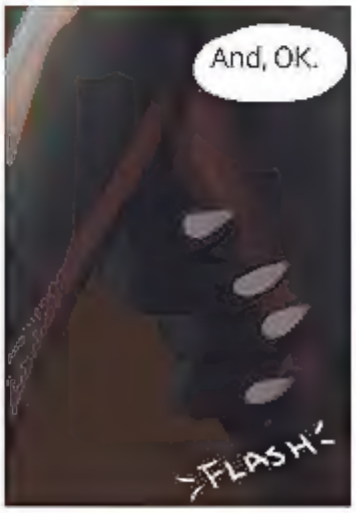


How do we do this?
<CLICK>
Done!
What, seriously?
Just kidding. Stand up for me?
<SNAP>
But it's like, seeing a statue versus holding it, it just doesn't compare. You gotta have your own photos.
Can you put the mask on? I want before and after pics!
It scratched my face up when I did!
<CLICK>

Yeah well, it has to take blood somehow!
Can't it do it in ways other than cutting up my face?
SNAP
Maybe if you ask it.
If I ask it...?
Ouch, my cheeks!
Is it really that bad?
Something's different.
It's like there's someone else in my head now. Does that sound crazy?
It's faint, but there's a voice.
Someone trying to speak
This is so cool!

Hhhh...
What?
'What', what?
Thought you said something.
How long do I hold poses for?
I'll say 'OK' and then you can switch.





Taking photos of latex is fuckin' awesome!
It doesn't always have to be lewd.
Also, that's a hella cute pose.
This suit is totally indecent. That's why I was too young to wear it at the time.
CLICK
FLASH
KLIK
NON SENSE !??
Latex is a material anyone can wear!
Young and buff!
Old!
Even kids!
25

It comes from the very roots of nature!

Hevea brasiliensis, also known as the rubber tree.

Also, OK!

It's not the suit that's lewd. No, the intentions of its creation are utterly pure!

Who doesn't want to become an animal at one point in their life?

But it's what the person wearing the suit does that makes it so naughty.

Don't blame the suit on your own pervertedness, Ella!

Oh, and tilt your spine back, it'll reflect more of the light.

My pervertedness?

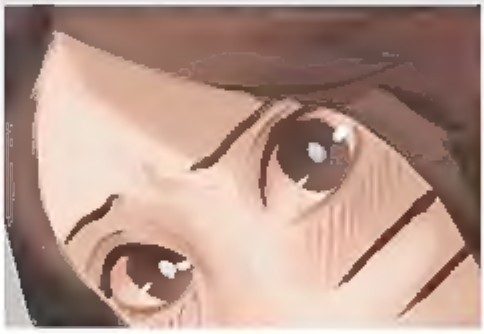
You're acting like this is wrong and dirty.

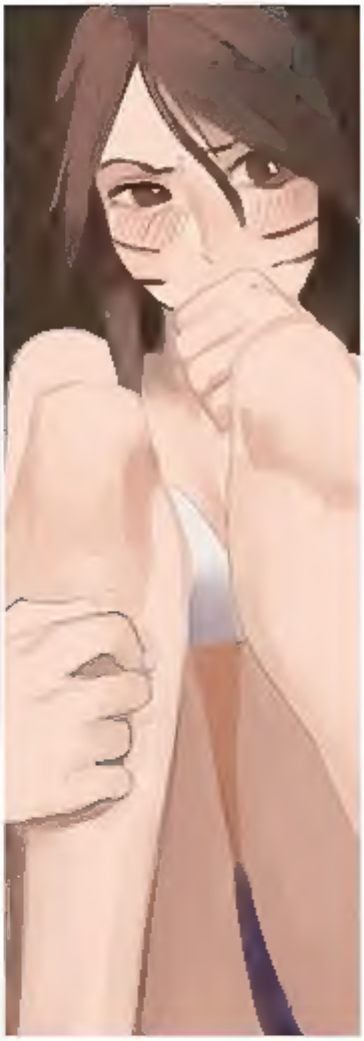
The suit is happy it's just being worn.

The simple act of being worn is enough to satisfy its most base need. Not anything lewd.

But you, Ella. It's like you need to feel like you're doing something wrong in order to justify wearing it. To enjoy wearing it.

But let me tell you, I'd enjoy wearing it down the street! There's nothing shameful about having a second shell!





How?

Is that the freaking suit talking?!

How.

How did I get here?

Holy shit wait let me record.

WHAT THE ACTUAL HELL?!!

Ella, stop panicking; you're gonna scare it!

You act like you've never seen a talking sentient suit before!

Where.

Where am I?

Ooohh my god.

You're in my friend's room.

You're wearing her--Ella--by the way.

Why am I.

Why am I here?

Don't they like, program them to know what's going on?

Apparently not.

Bought me...
had no part in that!
Yeah and yet you still put it on, so you're a part of this crime
What am I supposed to do now? It'd be kinda weird to just continue this, now that this thing is awake
What about how it feels about this?
Maybe I dunno. Just ask?
Kinda awkward
Are you good with all of this?
With what?
Photoshoots
Shooting?
I do not like being shot
No, no, to take photos is called a photoshoot. It doesn't involve actually being shot
Hmmm...
Holy crap, this thing is actually pensive. I feel like I'm violating some moral code by actually wearing a sentient creature

Okay.
Great Ella, just keep doing what you were doing before
This definitely isn't norma
LATER...
Tessa t's been hours My muscles are cramping up
You wanna stop for now?
Kind of, yeah

ye
See ya

The creature is bound by an obligation to be worn, because it is clothing, yet it's sentient.

Sentient creatures, especially ones that can communicate with humans like this... Could it really be legal to own one of these things?

And yet, despite that, I felt so much more comfortable taking these photos.

The presence of the suit was like there was someone else staring out of my eyes instead of me.

Ella.

Huh?

That is your name.

Y-yeah? Uhm... what's your name?

I do not have one I simply *am*.

Oh. ...What about Zeich?

Why name me?

I can't just call you 'suit', right? ...That seems kind of dehumanizing. And you're sentient and all.

What happens when I take you off?

My blood reserves have been filled since you wore me for an extended period of time. I will remain awake for quite a while.

Oh yeah, Tessa told me... do you have to take blood from the same spot every time? I'd prefer not to become Scarface every time I put you on.

You do not like it?

Who likes getting their face scratched up?

Like, anywhere but my face. You can do that?

I see. Yes.

A-and, I can't wear you all day. I have to work and stuff... what will you do?
I kinda came into this situation completely unprepared.
I would sleep until you are ready.
You...
You...
will put me back on, yes?
Really?! And oh, of-- of course!
Oh hell, now I have more obligations on top of all my work!
But I can make it work.
It's not like I have a choice in the matter.
Aw man, now I feel guilty about all of this.
How about this: I wear you every other day.
Just for a while. It'll give me time to have a breather between work hours, and for you to stretch your legs. Or, for me to stretch them. Hehehhhh.
Okay.
Cool.
33

Normally,there's an accumulation of sweat underneath latex, from what I've read.
Strange, there's none on me. The inside of Zeich is still wet, though.
Does it hurt to be wrinkled like this?
No... But it is uncomfortable.
Sorry about that.
-BLINK-
...NOPE!

No way am I showing myself to a freakin... *wolf* thing.
Not like it could *do* anything but.
Normal bandaids aren't gonna cover this...
Owowow!
This looks ridiculous!
So uh... goodnight then?
Goodnight, Ella.
That is still so freaky to see the suit move on its own!
